With a commitment to empowering students and young professionals, Internly aims to create a workforce ready for the competitive IT industry while also contributing to employment generation.

Internship Programme for 1 Crore Students in 500 Companies!

Mission & Vision.

MISSION

At Growtern – a unit of JayMamta Industries Pvt. Ltd. - our mission is to empower students and young professionals by providing affordable, practical, and globally recognized internship and training programs. We aim to bridge the gap between academic knowledge and real-world industry skills through hands-on projects, expert mentorship, and career support, ensuring every learner is prepared for the competitive IT landscape.

VISION

Our vision is to become a leading global platform for industry-focused internships and training, recognized for creating a skilled, job-ready workforce. We aspire to foster innovation, encourage continuous learning, and contribute to employment generation, ultimately shaping future leaders in technology and design.

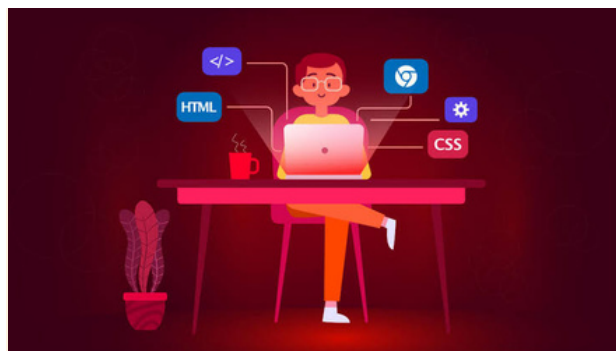

What We Offer (Internship Programs)

Web Designing

Web designing helps create attractive, responsive, and user-friendly websites that build a strong online presence. In the current market, this skill is in high demand as every business needs a professional digital identity.

Front-End Development

Frontend development builds interactive, responsive, and user-friendly interfaces for websites and apps. It is important today as businesses need seamless digital experiences to engage users.

UI/UX Designing

UI/UX is crucial today as companies seek user-friendly and engaging digital products.

Skilled UI/UX designers are in high demand to boost customer experience and retention.

Back-End Development

Backend development powers the server, database, and application logic, ensuring digital products run smoothly and securely. Skilled developers are in demand to build scalable, reliable, and efficient systems for businesses.
